Smart Launch

General Ledger

What is Smart Launch?

Whether you are new to CATAPULT® or an experienced user—we know you're eager to master every facet of the platform to grow your success. We also realize that folks have varied degrees of technical aptitude. Some choose to "go it alone" and take a DIY approach with new technologies, others prefer step-by-step guidance.

"Smart Launch" was developed for the latter group.

Smart Launch consultants can help you master different aspects of your CATAPULT technology stack as you plan out a series of near-term tangible goals. They'll also help you build out a framework for reaching long-term objectives.

Smart Launch programs are available for CATAPULT WebCart™ (ECommerce), Loyalty solutions, **General Ledger (Accounting Solutions)**, Inventory Automation, and Briefcase™ (Reporting and Analytics functions).

> **WANT TO "DO-IT-YOURSELF" INSTEAD?**
>
> If you are interested in the "go it alone" approach, you can find resources pertinent to General Ledger in the General Ledger Accounts overview found in our Online Manual (OLM).

Program Outline for General Ledger

Duration: Up to four hours of consultation

The General Ledger Smart Launch Program empowers retailers to begin using CATAPULT's General Ledger accounting functions at a master level. The program includes General Ledger setup, configuration overview training, and product training.

Program includes:

- **Setup and Configuration Overview Training:** Your Smart Launch consultant will determine what is needed to begin implementing General Ledger into your store systems.

- **Product Training:** Your Smart Launch consultant will train you on General Ledger, Worksheets, & Reports.

For more information or to sign up for this Smart Launch program, please contact the ECRS Customer Care team at 1-800-211-1172 option 1, or submit a support ticket via myECRS.
